Construction begins Tuesday, January 30, 2024 on a project to **make roadway improvements to US 70 North Main Street between the intersection of Spitz/N. Solano Drive and the intersection Elks Drive/N. Triviz Drive.**

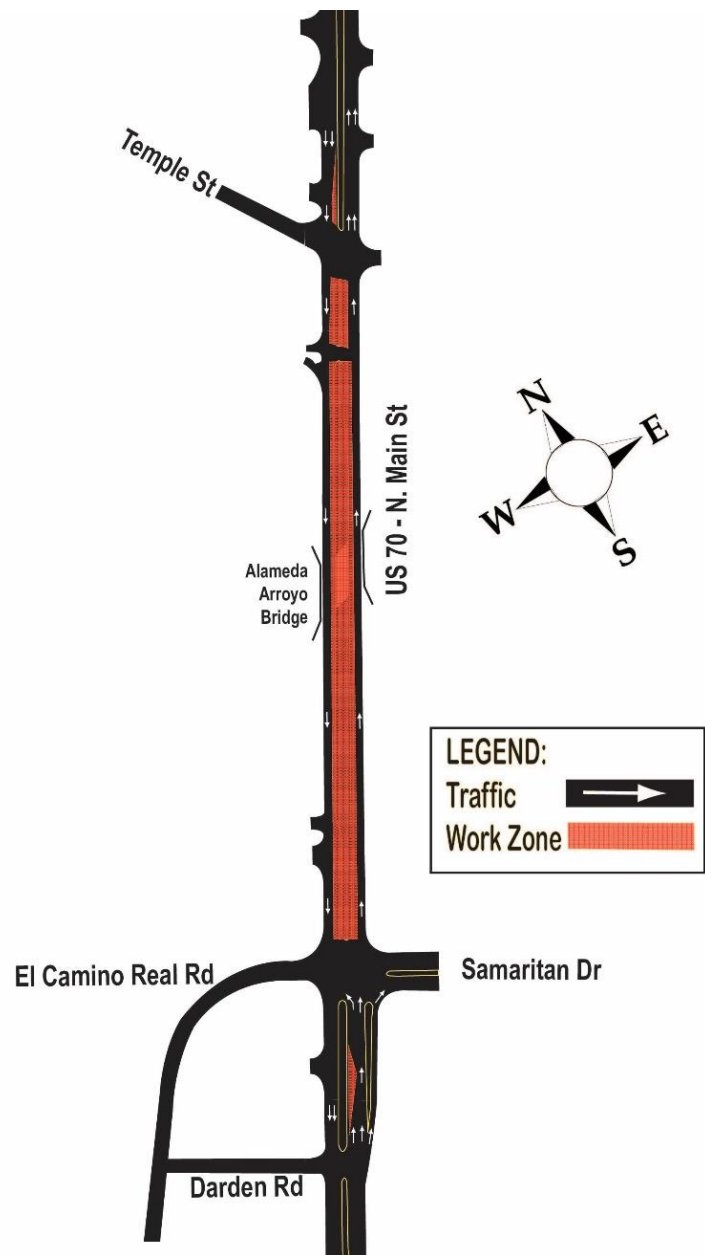

For the first week to 10 days of the project (through about February 7-9, 2024), crews will demolish medians to build traffic crossovers. During this time, the following traffic impacts will be in place:

- The left (inside) lanes of both eastbound and westbound US 70 North Main Street will be **CLOSED** from about Temple Street to about El Camino Real Road/Samaritan Drive.
- **One lane of traffic will be open** in each direction in this area.

Crews will then begin Phase 1, working on the east side of US 70 North Main Street. **The speed limit will be 35 miles per hour throughout the construction zone.**

Motorists are encouraged to use extra caution in the construction zone, obey lower posted speed limits and allow extra time to reach their destinations.

Regular work hours will be **Monday-Friday 7 a.m.-5 p.m.**, although the contractor may work longer hours or on weekends if needed. Additional phases will follow, with the project expected to be completed in October 2024. **Access will be maintained to all businesses and residences during construction.**
