Construction will shift to Phase 1 & 3A on **Monday, February 5, 2024** on a project to make roadway improvements to US 70 North Main Street between Spitz/ N. Solano Drive and the intersection of N. Triviz Drive/Elks Drive.

During this phase of construction, expected to last about **four (4) months, through May 2024**, the contractor will be working in the eastbound lanes of US 70 and on the east side of the bridge at the Alameda Arroyo. The following traffic impacts will be in place:

- The Alameda Arroyo trail crossing will be **CLOSED**.
- One lane of traffic **ONLY** will be open on the east side of US 70 from Elks/North Triviz to Temple and from north of Samaritan to Spitz/N. Solano.
- In the area of the Alameda Arroyo Bridge, there will be only one lane of traffic in each direction (eastbound and westbound) on the west side of the roadway so crews can demolish the east side of the bridge.
- There will be two lanes open on the west side of US 70 from Elks Drive/N. Triviz to south of Temple and from south of the Alameda Arroyo Bridge to Spitz/N. Solano.

ACCESS will be maintained to **ALL** businesses on both sides of US 70 North Main Street.

The speed limit will be 35 miles per hour throughout the construction zone. Motorists are encouraged to be patient, expect delays and look out for construction crews and equipment.

Regular work hours will be **Monday-Friday 7 a.m.-5 p.m.**, although the contractor may work longer hours or on weekends if needed. Additional phases will follow, with the project expected to be completed in **October 2024**.
